PRESENTATION

Hello!

I am a man of 39 years who resides in Åstorp, Skåne County.

I moved to Skåne in 1990 and has since been here. Since my childhood I have with me my interest in animals and nature.

I've been doing a lot of climbing and hiking through the years. I'm very interested in computer and technicals.

This is something I like to spend my time on my spare time. My interest in motorcycles and boats is also something close to my heart.

I myself am not boaters but dream to build a self-made boat from scratch.

With the help of Sketchup I will draw and design a boat that will in future be built on the basis of these sketches. In my garage is my old Yamaha XJ 600 which hopefully will be on the road again after a reparation. My work at the shipyard in Landskrona is also one of my great passions, but unfortunately the backlog related.

Because of this, I have unfortunately become alerts of dismissal.

In the yard, I am employed as a production processor and is responsible for everything for manufacturing base to development of steelhulls. I have an ability and willingness to

try to improve things, I have also developed digital tools to include programming autocad in order to become a little more self-sustaining.

With these digital tools, we have at the yard cut down by as much as a full employment. This, by the digital tools allow me to continue with other tasks while the CAD detailed work on the command itself.

EDUCATION

Högberg School Ludvika

Level: Upper secondary education

Focus: Transport

Time period: 1986 - 1988

Description: Vehicle Mechanic training. Transportation to focus the second year.

EXPERIENCE

Production Planner

Employer: (*) Landskrona shipyard AB

Time period: 2006-05-04 - 2009-10

Description: (*) responsible for manufacturing the surface. Burn Basis for cutting machines

Endcutting details for profiles and bending and rolling of this material.

With Microsoft Office. Autocad lite 2009, Skethup.Procut.Procut nest and database MultiPlus.

Operator

Employer: (*) AB Carlsson & Moller

Time period: 2005-04-01 - 2006-05-03

Description: (*) machining of plastics. Sawing, planing and milling in accordance with drawing.

Sanitation Workers

Employer: (*) NÅRAB

Time period: 2004-08-02 - 2005-04-01

Description: (*) engine driving, truck driving, sorting.

Excavator

Employer: (*) JIL Construction AB

Time period: 2003-04-21 - 2003-09-31

Description: (*) Miscellaneous digging in the construction equipment.

Construction workers

Employer: (*) ÖDAB

Time period: 2003-01-07 - 2003-04-21

Description: (*) Sewage, storm water, surface coatings asphalt, wells and curbstones.

Some stone formation and execution gravel truck and excavators.

Production Planner

Employer: (*) Bruces Shipyard AB

Time period: 2002-06-01 - 2002-12-31

Description: (*) Calculation of accord. Plan and allocate the manufacture of airframe sections by ship drawing. Make 2 axis cutting programs using Procut and ACLT2000. Autocad Light

measurement techniques

Employer: (*) Bruces Shipyard

Time period: from 19980601 to 19990601

Description: (*) Measurement with and documentation of ship sections. Work included theodolite, 3 axis laser, leveling instruments.

Documentation was made with isometric drawings.

Foreman

Employer: (*) Bruces Shipyard AB

Time period: from 20010601 to 20020601

Description: (*) Timesheets, planning of working hours such as daytime 2shifts 3shifts as needed. planning procedure.

Precast

Employer: (*) Bruces Shipyard AB

Time period: 1996-01-02 - 1999-06-01

Description: (*) Making steel components which were subsequently mounted to the hulls.

Forklifter driver

Employer: (*) Andersson Shipping AB

Time period: 1994-11-04 - 1995-12-31

Description: (*) The loading and unloading of trucks

Stock Manager

Employer: (*) AB Chris Gronlund military AB

Time period: 1993-03-11 - 1994-11-04

Description: (*) to keep the stock. document the warehouse stock. And seller in the store.

Chauffeur

Employer: (*) Tony's couriers

Time period: 1992-06-25 - 1992-12-23

Description: (*) Transport of goods as ordered.

Bread Distributor

Employer: (*) Vadensjö Bakers AB

Time period: 1991-10-12 - 1992-03-01

Description: (*) Delivering bread to stores within the district.

Construction workers

Employer: (*) SIAB

Time period: 1990-03-19 - 1991-10-12

Description: (*) Sewage, storm water, surface coatings asphalt, wells and curbstones. Although some stone formation

Welders

Employer: (*) Dala Zinc Ltd

Time period: 1988-10-31 - 1990-04-06

Description: (*) Worked as a welder. With drawings in hand, collect materials, prefabricated and then weld and merge features to the finished product.

Construction workers

Employer: (*) Ivar Andersson Dig ab

Time period: 1988-04-01 - 1988-10-15

Description: (*) Wastewater, surface coatings asphalt, wells and curbstones. Although some stone formation

OTHER QUALIFICATIONS

Sketchup

Organizer: Google

Time period: 2006 - 2009

Description: 3d modeling using SketchUp.

Among other things, I constructing private boat in this program. Has also published some on the web.

The idea is that one day when the kids are older, be able to build one for me and my wife.

Domain Creator

Organizer: www.mammamita.se

Time period: 2008-12-20 - 2009

Description: I registered this domain and have installed WordPress Blog.

IT hardships AND CROPS

Organizer: janne.mammamita.se

Time period: 2008-12-31 - 2009

Description: Here I have the leisure time created a blog about my own interests and ideas. Although it is installed and registered by myself. Here I have, among other things, published the boat, but much work remains.

Beta Testers

Organizer: Autodesk

Time period: 2008-06 - 2009

Description: One of the reasons that Aclt2009 work well today is that I was very insistent that they had to fix a memorybug in Aclt2009.
