

BERTRAM BAHIA MAR 25

To the race-proven Bertram 25 hull has been added rakish styling combining the dash of superior performance with the pleasure of comfortable cruising. Topsides, there's an exceptionally large cockpit with plenty of lounge-around room. Within the fully enclosed cabin everything — even the lighting — is new and different. Translucent fiberglass panels flood the cabin with softly diffused light, accentuating the beauty of the interior arrangement. For your cruising comfort, the Bahia Mar gives you a galley, private head, and two full berths. For the newest look in a classic hull design, look at the new Bahia Mar 25.
