

This is the technical data sheet of the **Ecoflo[®] Coco Polyethylene-ECDn unit**. If you have any questions or comments, please contact the customer service at **1 800 632-6356**.

Material used

- **Shell:** polyethylene;
- **Monobloc configuration:** Pack
- **Lid, central support, tipping bucket and distribution plates:** plastic;
- **Filtering media:** organic natural fibers.

Models	Ecoflo Coco 3.4- PACK	
	EC7-600-P-P-PACK-USA	EC7-600-P-G-PACK-USA
	EC7-2200-P-P-PACK-CAN	EC7-2200-P-G-PACK-CAN
Type of disposal	pumped	gravity
Type of bottom	closed	closed
Treatment surface area	3,4 m ² (37 ft ²)	
Length (A)	3 550 mm (11' 8")	
Width (B)	2 360 mm (7' 9")	
Height (C)	1 610 mm (5' 4")	
Inlet height (D)	1 310 mm (4' 4")	
Inlet height (E)	305 mm (1')	
Outlet height (Fg and Fp)	1 155 mm (4'1")	38 mm (1½")
Total Storage volume under the filtering media	1 135 L (300 USG)	
Built-in effective volume available for dosing	665 L (175 USG)	N/A
Weight* (including internal components and dry filtering media)	850 kg (1 870 lb)	840 kg (1 850 lb)

*Weights indicated are approximate and not binding (for handling and lifting purposes only).
